Halifax Partnership is Halifax's economic development organization. Our Investors are central to everything we do. In fact, Halifax Partnership was founded in 1996 when private sector leaders championed the formation of a new public-private economic development organization focused on keeping, growing, and getting business, talent, and investment in Halifax.

Now our internationally recognized and award-winning organization includes more than 100 private sector partners who play a crucial role in our success.

We're delighted that this includes 16 of our 17 Founding Investors. They lead with a passion for growing Halifax and a clear, shared vision for our city's economy.

As a connected and influential leader, you share our commitment to growing a thriving and sustainable Halifax. As partners, we'll seize economic opportunities that impact your business and extend into every corner of our community.

An investment in the Partnership is an investment in our city.
