

**Job No: 5**

**Position: Carpenter**

**NOC: 72310**

**Name of Company:**

Jason Roy Home Renovations

**Website URL:**

[Home - Jason Roy Renovations](#)

**Responsibilities and tasks of the position:**

A carpenter is a skilled tradesperson responsible for a wide range of tasks related to working with wood and other construction materials. Their responsibilities and tasks typically include:

**Project Planning:**

Reading and interpreting blueprints and construction plans.

Collaborating with architects and contractors to understand project requirements.

**Measuring and Cutting:**

Accurately measuring and cutting wood, metal, or other building materials to specific dimensions.

**Joinery and Assembly:**

Constructing and assembling structures, such as frames, walls, roofs, and cabinetry.

Using various joinery techniques like mortise and tenon, dovetail, and others.

**Installation:**

Installing doors, windows, flooring, moldings, and other building components.

**Finishing Work:**

Applying finishes, such as paint, varnish, or stain, to protect and enhance the appearance of wood surfaces.

**Repairs and Renovations:**

Repairing and renovating existing structures, including fixing damaged components and ensuring structural integrity.

**Carpentry Tools and Equipment:**

Operating a wide range of hand and power tools, including saws, drills, chisels, and more.

**Safety Compliance:**

Adhering to safety protocols and guidelines to prevent accidents and injuries on the job.

**Problem-Solving:**

Identifying and solving construction and design challenges that may arise during a project.

**Estimating and Budgeting:**

Estimating material and labor costs for projects and managing budgets effectively.

**Supervision and Training:**

Leading and supervising carpentry teams or apprentices.

Training and mentoring junior carpenters or assistants.

**Communication:**

Effectively communicating with clients, team members, and subcontractors.

**Quality Control:**

Ensuring the quality and accuracy of work, including meeting building codes and industry standards.

**Continuous Learning:**

Staying updated on industry trends, new materials, and building techniques.

**Environmental Considerations:**

Complying with environmental regulations and implementing sustainable construction practices when applicable.

Carpenters are essential in the construction and woodworking industries, and they play a vital role in creating and maintaining various structures and components, from residential homes to commercial buildings and beyond. They require a combination of technical skills, craftsmanship, and attention to detail to produce high-quality work.

**Qualifications for the position:**

Minimum of 8 years of recent residential home renovations experience

A certificate/ Diploma or red seal certification would be an asset.

**Location (remote, hybrid, in person):**

In Person

**Employment type:**

Full time

**Salary range and benefits:**

Starting at \$23/hr

**Languages required:**

English
